Manuscript Preparation Guidelines

The manuscript must be prepared on A4 size paper with the following margin settings: 2 cm for the top, 1.5 cm for the bottom, and 1.2 cm for the left and right. Font throughout must be Browallia New for English articles. The manuscript length should not exceed 15 pages.

1. Title

English title is required and must be center-aligned. The English title should be capitalized and use 19-point bold type font.

2. Author(s)

The name(s) of all author(s) must be in English, centered, and set in 15-point type. A number superscript should be indicated immediately after the author's name. The author's affiliation should be presented in a footnote that matches the author number on the same page. The corresponding author should be marked an asterisk (*) after the number. The email of the corresponding author should be identified using 10-point type.

3. Abstract

The abstract should include introduction, research method, conclusion, and discussion, respectively. It should not be more than 300 words. The heading should be in 14-point bold type and the content should be in 12-point type.

4. Keywords

English keywords are required. Keywords should be related to your article and consist of 3-5 words. They should be placed on the left side of the abstract. The keywords should be in 12-point type.

5. Content

The content should include the following sections: **Introduction, Materials and Methods, Results and Discussion, Conclusion, Acknowledgement, CRediT Authorship Contribution Statement, Declaration of Generative AI Use, Ethical Approval, and References**. The content and sub-heading should be in 14-point type and the heading should be in 16-point bold type.

6. Figure(s) and Table(s)

Figures and tables should be bold (e.g., **Table 1** and **Figure 1**). The description should be in 14-point type. The size of the figures and tables should be appropriate and suitable for publication. Figures and tables are embedded within the text at relevant locations.

7. References

All references mentioned must be cited in the text using the name-year system. All Thai references must be translated into English and include 'in Thai' in parentheses at the end of that reference, after the punctuation, with a space before the parenthesis. For Example, Neamchuchuen, T., Niramol, K. and Topithak, K. 2019. Contributor Roles Taxonomy (CRediT)

Authors are required to provide a Contributor Roles Taxonomy (CRediT) statement describing the specific contributions of each author to the manuscript. The CRediT statement should be included in a separate section before the references.

Authors should identify individual contributions using the standardized CRediT roles, such as **Conceptualization, Data curation, Formal analysis, Funding acquisition, Investigation, Methodology, Project administration, Resources, Software, Supervision, Validation, Visualization, Writing – original draft, Writing – review and editing.**

All authors must agree to their stated contributions prior to manuscript submission. The corresponding author is responsible for ensuring the accuracy and completeness of the CRediT statement.

Guidelines for Submission

The manuscript should be prepared in MS-Word format. It should be submitted along with the article submission form to the Editorial Board of *Recent Science and Technology* via online submission at <https://li01.tci-thaijo.org/index.php/rmutsvrj/about/submissions>

Criteria for Publication

All submissions are initially evaluated by the Editorial Board to ensure that manuscripts are properly prepared and formatted prior to the peer-review process. Submissions that do not comply with the journal's guidelines will be returned to the author(s) for revision. Manuscripts that meet the initial requirements will be forwarded to external reviewers for peer review. Authors will be notified of the editorial decision, whether the manuscript is accepted, rejected, or requires revision. Following publication, authors of accepted manuscripts will be formally notified.
